

To: All members and friends of APSA

Seminar on Anti-Terrorism Facility Security Protection Plan & Vocational Skills Requirements and Facial Identification Technique & Distancing yourselves from accusation of Sexual Harassment

Part I: Although terrorism threat has yet to intrude into H.K., there are signs where copycats have adopted terrorist's mode of attacks using IED, VBIED, etc., to release their deluge of wrath against individuals and/or organizations with their criminal acts. Let alone "Lone Wolves" and self-radicalized individuals who may become an emerging security threat that seriously threaten the stability of H.K. society.

Part II: Everybody in the world shares a fair chance of being a victim of robbery, assault or indecency acts etc., whereupon the criminal manages to flee the scene immediate after committing the offence. To facilitate the Law Enforcement Agents to catch the criminal, it is important that the victim not only furnish with the general description of his attacker, he/she should clearly identify the facial description since it is a vital evidence for the law enforcement and judiciary bodies to secure a guilty verdict against the offender. Sexual harassment is a hot topic recently. People may not be so well aware of what sort of behaviour constitutes an alleged sexual harassment, until someone speaks out publicly and become the subject of police investigation. Here is the chance for you to know more of the above so as to better equip yourselves to react under any of these situation.

Speaker: Mr. Joshua KWAI

Ex-Military Police Officer of the Singapore Ministry of Defense & Ex-Law Enforcer of the Singapore Police Force

Since Joshua left the public service to join the private security sector in 2007 till current, he has been serving the security industry worldwide as a Security Consultant & Trainer. His areas of expertise are in anti-terrorism solutions, anti-crime solutions, country risk analysis, business intelligence, due diligence, security training, etc., and his consultancy projects track records spread across Asia Pacific. From time to time, he is being invited by major security conference organizers to speak at their events. Apart from this, Joshua is also being invited by an international security journal to contribute articles on addressing today's emerging security threats.

Mr. LAW Ka-keung

A retired Chief Inspector of the Hong Kong Police (HKP)

Mr. Law has served with the HKP for over 37 years and most of his service was with the Crime Wing. He has been the Officer-in-charge of the 'Hit Team' of the Criminal Intelligence Bureau (CIB) where he acquired valuable knowledge and experience in the facial identification technique. With his experience in the Crime Wing of the police force, he will also share with us on our should-be behaviours when dealing with person of other sex so as to avoid misunderstanding by the other party.
